

Voices of the Veterans

On May 22nd, NWR Patriots enjoyed the annual Voices of the Veterans program. Each year, this event serves tribute to military veterans, providing a platform for students and the community to honor and learn from those who have served in the armed forces. Each year, veterans from all branches of the military are invited to share their personal stories and experiences with students. This interaction offers students a unique opportunity to gain firsthand insights into military service and the sacrifices made by service members. The event includes presentations, discussions, and performances that foster a deeper understanding and appreciation of veterans' contributions.

a trip to NYC

The Spanish Honor Society and Honors Spanish 4 went on a field trip with Food Tours of New York to experience foods from all over the world, including a deliciously spicy Japanese-Mexican soft taco, Belgian chocolates, Italian pizza, and good old American hot dogs. They listened to an expert tour guide detail the history of the Meatpacking District, the Chelsea Market, and the elevated flora along a portion of High Line Park. It was a perfectly not too rainy day for this trip! A good time and good food were had by all!
